

Economical, easy-to-install and reliable, this versatile angle cut piston ring is designed for a variety of combustion engine and compressor applications.

SIZE RANGES

MATERIALS

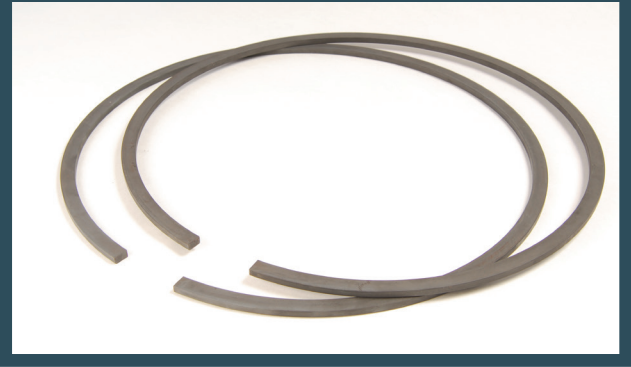

- Cast Iron
- Ductile Iron
- Ni-Resist
- Bronze
- Stainless Steel Nickel-Based Alloys
- PTFE

Quality and Innovation Since 1929

ISO 9001:2015
CERTIFIED COMPANY

DATA SHEET ANGLE CUT

FEATURES

- Chamfer
- Radius
- Vent
- Scraper
- Groove
- Bronze Insert
- OD/ID Bevel
- Taper

COATINGS

- Manganese Phosphate
- Electroless PTFE/Nickel
- Chrome
- Silver Lead Indium
- Tin & Tin Nickel

APPLICATIONS

- Mobile Hydraulic
- Industrial Hydraulic
- Shock Absorbers
- Turbocharger Assemblies
- Oil & Gas Compressors
- Hydro-Electric (Large Diameter Steel)
