

**DOUBLE SEAL  
RING CO.™**

Our sealing ring with angle step cut design is widely used in air compressors. It serves as an alternative to Permasel® but provides only a single-directional seal.

This sealing ring has lower leakage characteristics and is available in compression or vacuum angle joint configurations. Due to its bi-directional sealing design, Permasel® may be a more desirable alternative.

**SIZE RANGES**

**MATERIALS**

- Cast Iron
- Ductile Iron
- Ni-Resist
- Bronze
- PTFE
- Stainless Steel Nickel-Based Alloys
- Steel

Quality and Innovation Since 1929

DATA SHEET  
**ANGLE STEP CUT**

**FEATURES**

- Chamfer
- Radius
- Bronze Insert
- Groove
- Taper

**COATINGS**

- Manganese Phosphate
- Electroless PTFE/Nickel

**APPLICATIONS**

- Air Compressors
- Hydraulic
